	Part A+B mixed:	grey

Packaging	250 ml cartridge, 12 per box
------------------	------------------------------

**Mechanical / Physical
Properties**

Compressive Strength ~50 N/mm² (14 days, +23°C)

Application

**Application Method /
Tools**

General Advice

Clean the substrate (free from oil, grease and dust, no loose or friable particles, no cement laitance).

Pump approx. twice until both components start to come out uniformly. Do not use this material. Release the gun pressure and clean the end of the nozzle with a cloth.

Apply the adhesive. Observe the open time.
